What am I running for?

I am running for Student Representative in the Board of Education for New Haven Public Schools! I want to speak the opinions and ideas of the smallest voices and represent all 20,000 students in NHPS. We deserve to be heard, loud and clear, about what we can do to make our public schools a safe place for education; build bonds among teachers, families, and community members; and ensure the needs of all schools are met.
