Proposal for New Haven Public Schools Academic Year 2023-2024

Scope of Services:

The Little Scientists® Program will support New Haven Public Schools' STEM programs by providing more out of school time for students to investigate and experiment. The Little Scientists® Program uses the excitement of scientific investigations to engage students in improving scientific, literacy, mathematics, critical thinking, and problem-solving skills. Our goal is to enhance the student's foundation in all I-STEM (Innovation - Science, Technology, Engineering, and Mathematics) areas.

The Little Scientists® Program includes hands-on, minds-on, inquiry & practice-based science investigations and experiments that meet the New Haven, Connecticut and National Next Generation Science Standards (NGSS). All lessons incorporate the 3-Dimensional nature of the NGSS. The Disciplinary Core Ideas, Science and Engineering Practices and Crosscutting Concepts are brought together in performance expectations that are embedded in the Little Scientists Lessons. Motivational activities, computer coding, robotic technology, and student choice opportunities are incorporated within the program to support youth development, student learning and engagement. The effectiveness of the Little Scientists Program in improving student academic performance in science has been well documented. After-School and Summer programs using a pre/post test model in New Haven schools show overall a significant increase in student science content knowledge, an increase in student attendance, and increased interest in science.
